

# BROCKTON.

By B. F. WEAVER.

(All communications intended for this department should be addressed to B. F. Weaver, New Brockton, Ala.)

Sunday was just the day to follow those gray November days of the past week. In fact it was bright enough to be a real Thanksgiving day, as well as the last Thursday in the month, and I think some of us are thankful that we are living to enjoy such a prosperous age.

Have you brought in the pumpkins and penned the turkey, ordered the cranberries and mince meat, saved the eggs and gathered the fruit—and O mamma are you ready to begin baking and baking for that good dinner?

Yes, Thursday is that day of all days when the schools all over our free country can lay aside their routine of studying, reciting and give special thanks for the blessing of the year. Not only the schools but the store, the shop, the office, and the farm may lay aside their work and join in the festivities and thanksgiving—but alas for the unfortunate Americans who are running so fast after the \$, they can't stop. Their only expression of thankfulness will be made by their appetite in its gratification for an extra good dinner.

Mrs. J. E. Marley returned last week from a visit to her father at River Falls.

The infant of Mr. and Mrs. Bud Helms died Thursday night.

Mrs. Jessie Moore has moved into the McKinnon house back of the Baptist church. All houses are filled now, its time for a building boom in Brockton.

Mr. Herbert Sawyer and his father spent Saturday with Mr. J. C. Fussell.

There is no more news this week from the reason that the editor was "piled up" or account of sickness and could not get out to learn the happenings. How

ever he dreamed that Christmas had already come and the streets of Brockton were filled with firecracker, fire-water, and fire-shooter and the night was made hideous and hellish, and the marshal was made a burden by the fire-workers who were thrown into the street from a fire fountain. But just here while the editor was trying to locate the fountain and decide whether it was at Pensacola, Cincinnati, or at Brockton the governor of Alabama came along, stuck the prohibition law under the whole business and blew it off the map of the world.

## Farmers Academy.

We hope and believe that the greatest joke of the season "New Nationism" is as dead as our Thanksgiving turkey will be next Thursday.

Our forefathers and statesmen who drew up the laws and framed the constitution which has made us the freest and happiest people, and the greatest nation of the world, said: "Away with monarchy and strong central government, away with tyranny." And we are glad to see the people rise up and say "Away with such men and such doctrine."

Thanksgiving. Over two hundred years ago there was a class of people in England who had been robbed and almost made slaves by unjust laws and taxation, and who had been persecuted and imprisoned on account of their religious belief and manner of worship until it seemed they could stand it no longer.

A small band of them decided they would seek a home elsewhere. They hated to leave their home and country, but a home and country where tyranny reigns has no charms strong enough to hold our affection. So forgetting things of the past, looking only to the future, sustained by hope they gathered the few belonging

that oppression had left them, and sailed for Holland. Here they remained for ten years, but were not satisfied and decided to seek another home.

Having heard of America, a wonderful opportunity and freedom to be gained here, they made ready to set out. Two small ships were bought, the Mayflower and the Speedwell and into these they crowded and set sail for America. It's Speedwell soon became disabled and was forced to turn back, but the Mayflower continued its voyage and after many days landed the pilgrims on the bleak and snow covered coast of Massachusetts. Having no houses, and being unused to such cold many began to sicken and die. And being midwinter they could not plant crops for and many suffered for nourishment. When spring opened more than half their number had died.

But when autumn had come again so diligently had they worked that an unusually fine harvest was gathered, and their governor John Bradford, ordered a day of thanksgiving and prayer be observed, and that the 1st of the land be placed on the festival board, to eat all might eat and be thankful. And thus originated our "Thanksgiving Day" and dinner on the last Thursday in November.

The prices of beef and pork are falling, says a dispatch from Chicago. Within the last week the price of beef has been reduced between 4 and 5 cents a pound by the most packers. The price of pork has declined about 3 cents from the price of 18 and 20 cents a week ago, and wholesale meat dealers say that mutton, veal and other products of the packing houses will take a downward turn within the next few days.

The supreme court of the United States at Washington has adjourned for its Thanksgiving recess. It will reconvene on November 28.

Shreveport, La., has inaugurated the commission form of government, being the first Louisiana community to come under this new system of municipal management.

Why Farmers Should Keep a Bank Account.

Their bank deposit book affords them a complete record of their cash receipts, while the stubs of their check books are a perfect record of expenses and payments. Paying a laborer, a store account or any other bill with a bank check is much safer than with money; because you avoid the risk of handling the actual cash, and the endorsed check returned by the bank is the best kind of a receipt.

Farmers, try the experiment for one year of keeping a bank account and see if it does not pay you. A large number of the best farmers have accounts with us now—we want

"War On Boll Weevil." Atlanta, Ga., Nov. 22.—More than two hundred delegates representing all of the cotton growing states in the south gathered in convention here today to discuss but one subject, "War on the Boll Weevil." The delegates were welcomed by Gov. Joseph M. Brown, and Mayor Robert F. Maddox.

It was the consensus of opinion that this cotton plant pest can be successfully fought, but that it will be necessary to completely revolutionize farming methods. It was pointed out that the weevil will be across the southwestern borders of Georgia by 1912 and that it is necessary to outline a campaign against the weevil as early as possible.

One of the most practical addresses of the session today was that by Dr. W. D. Hinds, state entomologist of Alabama. Dr. Hinds illustrated his address with stereoscopic views. He declared that to successfully combat the eastward march of the weevil the planter must burn off the cotton stalks just as soon as the crop is picked. He declared that this will kill 97 percent of the weevils. He remarked that what Georgia needed was an educational campaign.

Two sessions of the conference will be held tomorrow.

Dr. Crompton of Anti-Saloon League Issues Statement.

Montgomery, Nov. 22.—Rev. W. B. Crompton, of Montgomery, president of the Alabama Anti-Saloon League, in a statement issued Monday, declared that no secret, but an open campaign was being waged by the prohibition leaders "to influence the coming Legislature to retain the present prohibition laws on the statute book." The statement by Dr. Crompton was called forth by the declaration published several times that a secret campaign was being waged among members of the incoming Legislature to prevent the repeal or modification of any of the present prohibition laws.

Hustler is the "stuff." Hustler is guaranteed under the pure food law. This part of the globe has been well dampened by several rains recently. Whiskey is a bad thing it is true, but it gets a whole lot of abuse that sorry men ought to have.

The money that is commonly being wasted in holding state wide prohibition elections could be put to a much more noble and glorious use by letting it go to help out a more thorough education of children, and we would have a good deal less drunkenness in the future too, or at least this is the opinion of Hustler.

The best remedy for sorry people is to let them hang themselves. The manifold blessings with which we are immediately surrounded ought to make our thanks ascend to most, high Deity, on the great Thanksgiving day. Oh! how thankful Hustler is.

Food prices are said to be dropping all over the country, but this should not lead us in to any great extravagance as there might come another panic some Day.

The blind tiger doesn't seem to stand much show these days, especially when Comer gets in behind them.

Save us just a tiddy Mr. Comer. Just a tiddy please.

Caused from a spider bite, Mr. Charlie Goodson, of this place was made very sick recently.

The little babe of Mr. Cass Martin is reported to be very ill at this writing.

When it rains we hear road complaints. Coffee county needs more rail roads and better dirt roads and all these things could be had if the people would only get at it in the right way.

## Tolstoy Laid To Rest.

ZASEIKA, Russia, Nov. 22.—Today thousands of peasants followed the body of the late Count Leo Tolstoy to its last resting place.

The great Russian author and philosopher was laid to rest with the simplest of ceremonies. Count Tolstoy had no patience with arrogant aristocracy, but believed in humbleness in life. His death is mourned by countless thousands of Russia's poor.

Recital at Taylor's Mill. By special invitation Miss Clyde Kimmy, expression teacher at Elba High School, carried some of her most talented pupils to Taylor's mill school house Thanksgiving day and assisted in an entertainment at that place.

Those from Elba who took part in the recital were Misses Annie Laura Ballard, Alice Windham, Clara Moore, Milford and Lena Felder. They all report quite an enjoyable day.

At noon a bountiful thanksgiving dinner was spread on the grounds and all present were invited to partake freely.

## Good Yield Of Corn.

Andalusia Star. Henry Shaver of Andalusia planted seventy acres of corn. The yield was 62 bushels per acre—not guessed at, but weighed out. Mr. Shaver used 500 pounds of commercial fertilizer and 100 pounds of nitrate to the acre. There were six furrows to the row and the rows were four feet eight inches apart. Mr. Shaver does not think much of the Williamson plan. He will gladly give his theory to any farmer who may desire it. Sixty-two bushels to the acre—not guessed at, but weighed out—is worthy of consideration and an investigation.

## Arm Broken.

Late Wednesday evening, Cupidine, the oldest daughter of Mr. and Mrs. Joe Morrow, got her arm broken while playing "bouncing."

A physician was called at once and she is reported to be resting nicely.

## Fire at Troy.

Yesterday morning fire destroyed the Atlantic Compress and three thousand bales of Cotton. Nine box cars, some of them loaded with cotton, were also burned. The loss on cotton alone is estimated at \$200,000, what the loss on the cars and compress will amount to is not known. Most of the cotton was insured.

## Curing Bacon and Hams

Out this out and put in your scrap book. Meat must be properly cooled to ensure good keeping qualities when cured. If salted before the animal heat is out, the shrinkage of the muscles causes the retention of injurious gases, giving an offensive odor to the meat.

should not be frozen when salted, as it will be unevenly cured. It is important that curing should begin as soon as the meat is cooled and while it is still fresh. Twenty four to thirty six hours will be sufficient time, ordinarily, to salt

low the meat to cool. Important.—Salt is an astringent, and when applied alone to meat renders it very hard and dry. Its action is to draw out all of the meat juices. In a few days it will contract and harden the muscles. Sugar in not an astringent, its action is to soften the muscles, causing the meat to retain its juices, as well as improving the flavor.

Salt-petre will preserve the color of meat, or give it a reddish tinge. When the meat is thoroughly cooled rub each piece with salt and allow it to drain over night. Then pack it in a barrel with the hams and shoulders at the bottom, putting bacon on top. For each 100 pounds of meat, weigh out 8 pounds of salt, 2 ounces of salt-petre. Dissolve all in 4 gallons of water and cover the meat with brine. Bacon should remain in this brine four to six weeks, hams and shoulders six to eight weeks.

The brine should be carefully watched, if it gets thick and rosy, new brine should be made and put on at once.

When the meat is taken from the brine. It is best to wash it with tepid water to prevent a crust of salt forming. The meat should then be hung up to drain for a day or two, after which it should be hung in the smoke house and thoroughly smoked.

The meat thus cured will keep for an indefinite time and instead of becoming rancid or "rusty," will improve with age.

A good method is to paint the meat with syrup and black pepper which will keep out insects. Tie up in a paper bag, and hang up in a cool dark place until used or sold.

We are very much interested in this as we know that it will prove to be an immense source of revenue to our farmers, and hope that they will not simply read and cast aside, as "too much trouble." Read it over and over and you will see that it is really no more trouble than our present method of salt curing which produces hams that are hard and undesirable.

## FATALITY ON N. C. & S. L.

Train Goes Into Ditch Near Stevenson, Ala.

A. G. Sanford, fireman of Smyrna, Tenn., was instantly killed; Mike McGovern, engineer of Nashville, was badly scalded; and Postal Clerk Frank E. Allen was injured in the wrecking of passenger train No. 4 on the Nashville, Chattanooga and St. Louis railway. Three passengers were terribly shaken up, but no one was injured to any extent.

The accident occurred on what is regarded as an exceedingly dangerous curve, which runs along a deep ravine between Bolivar and Stevenson, Ala. A broken rail caused the engine to jump the track, the entire train of coaches following. The cars jumped along the ties for a hundred yards, the pilot of the engine finally plunging into the embankment. The engine then turned over, the cars toppling and leaning against the embankment.

Fireman Sanford was pinned under the engine and crushed to death. Engineer McGovern was caught in the wreckage and a stream of steam poured over his body. It is said he is in a critical condition.

Anton Schwartz, of New York, the millionaire brewer and president of the firm of Bernheimer & Schwartz, shot and killed himself in his apartment in Central Park West. Grief over the recent death of his son, to whom he was greatly attached, and whom Mr. Schwartz had expected to succeed him in business, is attributed by friends as the probable cause of the suicide.

Frank Aiken, a well-known actor, is dead at his home in New York, at the age of 73 years. He was born in Boston and first appeared on the stage under the management of his uncle, George H. Wyatt. He later became leading man at Mrs. John Drew's Arch Street theater, Philadelphia, and prior to the Chicago fire in 1871 was manager of Woods museum and Hookey's theater in that city.

HUGH T. INMAN DEAD.

Wealthy Man and Public Spirited Citizen Passes Away.

Hugh T. Inman, of Atlanta, leading business man and public-spirited citizen, died Monday night at 7:30 o'clock in New York at a private sanitarium, where he had been under treatment for a number of months.

With him at the end were his wife and his daughter, Mrs. John Grant, while hurrying to his bedside only to arrive too late, was his son, Edward Inman, who left Atlanta at midnight Sunday upon receipt of a telegram telling of a sudden and unexpected change in the condition of his father.

A telegram received by John W. Grant, the son-in-law of Mr. Inman, from Mrs. Grant, stated that the body would be brought to Atlanta.

Mr. Inman is survived by his wife, his son, Edward Inman, and his two daughters, Mrs. Hugh Richardson, and Mrs. John W. Grant.

## 8 KILLED, 6 INJURED IN TRAIN COLLISION

Freight Dashes Into Crowded Street Car.

## ACCIDENT AT KALAMAZOO

Conductor, It is Said, Did Not See Train and Gave Motorman Signal For Street Car to Pass Over a Crossing.

A Michigan Central freight train struck a crowded street car at Kalamazoo, Mich., killing eight and injuring six persons. The car conductor was on the railroad track and gave the motorman a signal to go ahead.

The train struck the car as it was half way across. It is understood that a freight car on a siding obstructed the car conductor's view.

Three bodies were removed from the pilot of the engine so badly mangled that recognition was impossible. Conductor Vern Van Horn had gone on the track to flag his car ahead. Standing near the crossing was a string of box cars. Seeing no train in sight he motioned his car ahead.

He had stopped aside to let his car pass when coming around the bend at a terrific rate was the train. The crash came just as Van Horn stepped from between the train and his car.

## POISON IN COFFEE.

Drug Placed in Drink Believed to Have Caused Death of Two.

William Sprayberry, aged 90 years, one of the richest planters of DeKalb county, Ga., and his wife, Mary Sprayberry, aged 85 years, are dead from the effects. It is believed, of drinking poisoned coffee. Three servants employed on the plantation are dangerously near death from drinking the coffee.

The Sprayberry plantation is located on the Flat Shoals road, one and a half miles from the Cedar Grove church. It is said to be one of the largest plantations in the county and is modernly equipped in every respect.

It is believed of neighbors that William Sprayberry, in a fit of temporary insanity, placed the drug in the coffee. Dr. B. M. Sprayberry, a nephew of the dead couple, stated that he had believed William Sprayberry to be insane for the past ten years. He believes Mr. and Mrs. Sprayberry died from the effects of arsenic or rosin on rats placed in the coffee.

The people of Mexico seem to have at last determined to throw off the yoke they have worn many years for Diaz and is to be hoped that they will succeed.

Dr. Crippen, the wife murderer, whose case has attracted world-wide attention, confessed to a newspaper in London that he had murdered his wife, and was executed in London jail Monday.

President Taft has returned from his trip to Panama and says he is well pleased with the work that is being done. All of which was to be expected.

A Texas farmer claims to have discovered a plan for making a bale of cotton to the acre on land that has heretofore been making only one-third of a bale. He says any one can make the cotton if they will follow his directions, and he will send directions for \$2, which is probably his reason for circulating such a lie.

Alabama Commercial and Industrial Association will meet in Montgomery next week, Nov. 29 and 30. Representatives from every town and county in the state have been invited and there will doubtless be a good crowd of representative men present.

The association is for the purpose of advertising Alabama and making known to the world the marvelous resources of the state. It is of the utmost importance to every man here that the convention be well attended.

### War in Mexico.

Reports from Mexico say that a fierce, bloody and extensive revolution is in progress in that country. Some ten or fifteen thousand men are in arms and a number of pitched battles have been fought with Mexican troops. In one battle 300 revolutionists and soldiers were reported killed, and a half a dozen other engagements from 25 to 100 deaths are reported.

The revolution seems to be widespread, several towns have been captured by the revolutionists, and a number of others are now surrounded and probably will fall.

This revolution in Mexico does not seem to be of the same kind as occurred periodically in some of the southern republics, but when the soldier and citizens meet there is a regular fight and several funerals.

The United States has several thousand troops on the frontier to see that American interest is protected.

A few Americans are reported to have been killed during the fight, but as a general thing, both the revolutionists and regulars are giving all protection to American people and property that is possible.

Here's hoping that the revolutionists may win, hang President Diaz, and make Mexico a republic in fact as well as in name.

## Richard Croker Talks Politics.

New York, November 20.—Richard Croker, the old Tammany leader, landed here from Ireland today for his annual visit to Palm Beach. He will spend a few days in New York and take no part in politics, but he was less taciturn than usual and vouchsafed a few comments on the election results.

"Roosevelt cost the republican party votes," he said, but I don't think a republican tariff is responsible for the high cost of living. The people have more today of everything that makes for comfort. They have rapid transit, schools, telephones, gas and electricity, automobiles, what not. Well, who's going to pay for it? The people themselves, I say.

"Home rule for Ireland? The people are confident they will get it, and I think with reason. I am not in politics myself, but I

### Sheriff's Sale.

By virtue of a Fieri Facias issued out of the Clerk's office of the Circuit Court of Elba, Coffee County, State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against W. H. Goodson out of the goods, chattels and tenements of the said W. H. Goodson, I have levied on the following property, to-wit:

All of the undivided interest of the said W. H. Goodson in the real estate belonging to the estate of W. H. Goodson deceased, and described more particularly as follows:  
W. 1/2 of NW 1/4, S. 1/2 of NW 1/4, SW 1/4 sec 16, E. 1/2 of NW 1/4, S. 1/2 sec 17, NW 1/4 of NW 1/4, sec 20, NW 1/4, NE 1/4 of SW 1/4, W. 1/2 of NW 1/4, sec 21, Tp. 6, R. 21, in Coffee County, Alabama, the interest of the defendant therein being an undivided one ninth interest. Therefore, according to said command, I will sell, at public outcry, for cash, all the right, title and interest of the above named W. H. Goodson in and to the above described property, on Monday the 28th day of November 1910, during the legal hours of sale, at the court house door at Elba, Alabama, in said county.  
Dated this 25th day of October 1910.  
J. B. Knight,  
Sheriff of Coffee County, Ala.
